

This is a note from the Associates Group for Affordable Housing, Inc. Regarding the Oakridge Fire fund. At this point in time the applications for assistance have come to a halt and we have set November 14, 2009 as the last date for review and acceptance of any further applications. All of you who may have sent emails but have not received a response should pay particular attention.

Over the past year we have received a few emails that are not readable. In order to resolve those few, we have attempted to reply, and because the email address is not in the proper format, the reply is refused. These mysterious emails would have addresses like “ng” or similar non-usable addresses on the web. We have no way of determining if these are legitimate requests or some form of scam. If any residents have not received a reply to an email request, please visit the park office and request a form that can be sent by facsimile.

Again we will not respond to any requests received after November 14, 2009. At that time we will account for the balance of the funds and make the final distributions. Best wishes to you all.

Gerald R. Gibbs
President
